

SeraSense AC 19

INCI: Isododecane (and)
Acrylates/Dimethicone copolymer

Applications

Suncare

Color cosmetics

Skin care

Benefits

Excellent water and oil repellency

Long lasting

Fixatives

Soft flexible film former

Wash off resistance

Description

SeraSense AC 19 is a silicone acrylate copolymer used in many personal care applications. It is a useful ingredient giving long lasting properties, consists of Isododecane and a high molecular weight acrylate silicone. Shows excellent water and oil repellency, wash off resistance, fast drying and act as soft flexible film former. These effects can be seen at addition levels of between 0.5 – 10% to color cosmetic and sunscreen formulations.

Typical Properties	
Appearance (Color)	Colorless to light yellow
Appearance (Transparency)	Clear to slightly haze
Non volatile content (%)	40
Viscosity (cS at 25°C)	500
D4,D5,D6 content (%)	Max. 0.1
CTFA / INCI Designation	Isododecane (and) Acrylates/Dimethicone copolymer

Typical Properties

The values mentioned are not intended for use in preparing specifications. We have made every effort to ensure these values are correct as of the revision date of this document.

Method of Use

SeraSense AC 19 was developed for use in color cosmetic and suncare products. The primary function of SeraSense AC 19 is to make soft film to show long lasting, water resistant effect in cosmetic formulations.

Recommended Usage Level

0.5 – 10% to sunscreens and color cosmetic formulations

Packaging

18kg pail and 180kg drums

Storage and Shelf Life

The product should be stored in a cool dark place away from direct sunlight. Shelf life of the un-opened container is 24 months from the date of manufacture. If you wish to use this product after this time, please contact us for details.

Toxicity and Handling

Please see our SeraSense AC 19 safety data sheet for more details. Information for safe use of this product is not included in this document. Before handling please read container labels and the safety data sheet for physical, environmental and health hazard information. Isododecane may cause skin irritation, proper dilution of this product into personal care end products is recommended
